CEDAS SURVEILLANCE
PRODUCT INTRODUCTION

PTZ camera | IP camera | Turbo HD DVR
NVR | Encoders/Decoders | Fisheye 360° IP camera
ANPR camera (license plate recognition) | Thermal camera | Access control

Basic Video Function	Advanced Features
Live View	Video Analytics Alarm
Playback	Video Analytics Metadata
PTZ	ANPR
IO	H.265
Audio	
Edge Storage	
Events	

Product profile:

- Video Surveillance
- On-board Video Analytic
- Fisheye Display
- Thermal Vision & Detection

Supported Device List

- Supports video, audio, alarm I/O, PTZ, motion detection, tampering detection, line crossing etc.
- Via ONVIF, supports all Hikvision ONVIF-complaint products and functionalities.

DARKFIGHTER GIVES YOU ALL THE DETAILS
EVEN IN THE DARK

Footage registered by conventional surveillance cameras in low-light conditions is often of little value due to the diminished quality, detail and colors of images. Darkfighter cameras are equipped with 1/2" CMOS progressive scan sensors enabling them to obtain high quality images with good color value in light levels as low as 0.002 lux, which the human eye perceives as total darkness. Darkfighter cameras are ideal for inconspicuous night time surveillance- their high sensitivity makes additional light sources unnecessary

DARKFIGHTER IS SMART SURVEILLANCE
FOR SUPERIOR SECURITY IN ANY SITUATION

Sometimes image quality isn't enough, especially when it comes to special applications and security for high risk sites. Surveillance cameras often require sophisticated analytical capabilities to ensure they discriminate threats accurately and work reliably in any kind of situation. Features like Smart Defog, Smart Face Detection, Smart Audio Detection, Smart Intrusion Detection, Smart Line Crossing Detection and Smart Video Quality Diagnoses make Darkfighter cameras exceptionally intelligent and able to meet even the most challenging requirements.

DETAILED, HIGH-DEFINITION IMAGES
DARKFIGHTER DELIVERS 2 MP FULL HD RESOLUTION

No other camera can match Darkfighter's combination of advanced analytical capabilities, superior performance in challenging conditions and megapixel HD resolution (1920X1080 at 50fps). And that's not all. Darkfighter cameras also feature the Smart Dynamic RoI (Region of Interest) codec, which focuses encoding on a predefined area. Since they save the highest resolution images for the details that really matter, Darkfighter cameras are able to make the most out of two megapixels. Combined, these features make up a camera that has set a new benchmark for professional video surveillance technology

INTEGRATION WITH THERMAL CAMERAS

FOR BETTER CO-VALUE PROPOSITION

DDE Off

DDE On

KEY FEATURES

- Advanced detection ability
- Accurate temperature measurement
- Excellent environment adaptibility

➢ Deep Metadata Integration with Thermal Cameras

 ▶ **ONVIF Metadata** ▶

➢ Video Analytics Alarm and Object Tracking Metadata

BUILD SMART SOLUTIONS WITH CEDAS SURVEILLANCE

We believe in strong partnerships and are eager to explore opportunities for considering venturing with CEDAS for exciting new possibilities:
